

Experiment No. 10

Name: Prathmesh Bonde

Roll No.: 42115

Class: BE5 P5

Subject: JavaScript

Javascript code:

```
const prompt = require('prompt-sync')();
const table = parseInt(prompt('Enter an integer: '));
console.log('Name: Prathmesh Bonde, ROLL NO.: 42115');

var length = 10;
var i = 1;
console.log('Multiplication table ' + table + ' using for loop.');
```

```
for (i = 1; i <= length; i++) {
    const result = i * table;
    console.log(`${table} * ${i} = ${result}`);
}
```

```
i = 1;
console.log('Multiplication table ' + table + ' using while loop.');
```

```
while (i <= length) {
    const result = i * table;
    console.log(`${table} * ${i} = ${result}`);
    i++;
}
```

```
i = 1;
console.log('Multiplication table ' + table + ' using do while loop.');
```

```
do {
    const result = i * table;
    console.log(`${table} * ${i} = ${result}`);
    i++;
} while (i <= length);
```

Output:

```
PS D:\Downloads\SEM7\JS_Expt\Expt_10> node  
Expt10.js
```

```
Enter an integer: 8
```

```
Name: Prathmesh Bonde, ROLL NO.: 42115
```

```
Multiplication table 8 using for loop.
```

```
8 * 1 = 8  
8 * 2 = 16  
8 * 3 = 24  
8 * 4 = 32  
8 * 5 = 40
